Tom Morris Named To Head Alta. Dairymen's Association

Didsbury dairymen added another honor to their long list of awards last Friday when one of their number, Mr. Tom Morris, was elected president of the Alberta Dairymen's Association for the ensuing year.

This is the second time a Didsbury man has been so honored, N. S. Clarke having held the office in 1924.

Mr. Morris came to Didsbury in 1930 and purchased the Didsbury Dairy which he has operated since that time.

In 1942 a new plant was built and at that time pasteurized milk was introduced here for the first time. During the war the Utility Board requested the dairy to supply Calumet with pasteurized milk and this practice still continues.

Mr. Morris raises purebred Holstein cattle and was an exhibitor at the last Toronto Royal Winter Fair when his entry was in the prize money.

GRASS SEED PRODUCTION
STIMULATED BY
NITROGEN FERTILIZER

In recent years grassland farming has come into prominence in the Peace River region. Brome grass and creeping red fescue have been grown largely for seed production, but a substantial acreage of these crops is utilized for hay and pasture.

It has long been recognized that these grasses are heavy nitrogen feeders, but it has only recently been demonstrated that seed yields can be stimulated by applications of nitrogen fertilizers, says C. H. Anderson, Senior Agronomist at the Experimental Station, Beaverlodge, Alberta.

In experiments in 1952 on a

four-year-old stand of brome grass the unfertilized check yielded 37 pounds of seed per acre. A spring application of 66 pounds per acre of ammonium nitrate (intra-prilla) increased the yield by 47 pounds per acre, while an application of 132 pounds per acre increased the yield over the check by 113 pounds per acre. Ammonium phosphate, 16-20-0 applied at 250 pounds per acre increased the yield of seed by 56 pounds per acre.

Where creeping red fescue was fertilized in the spring with 132 pounds per acre of ammonium nitrate the increase over the unfertilized check was 189 pounds, while the same rate applied in autumn increased the yield of fescue seed by 235 pounds per acre. The yields of the unfertilized check plots averaged about 200 pounds of seed per acre.

In preliminary work to date, phosphorus alone has not increased seed yields, hence the Canadian recommendations of ammonium nitrate. It is recommended that the fertilizer be applied in the fall at the rate of 100 pounds per acre.

Agricultural
SERVICE
BOARD
NOTES

W.K. Snyder,
Field Supervisor

Better Farming Week: The Agricultural Service Board is again planning to hold a number of meetings at various points throughout the municipality. As has been our custom during the past number of years to sponsor this series of farm meetings we will undertake to do so again. To those who have been in the habit of attending, no explanation of the type of meeting is required. To you, who have not attended before, let me explain.

In many districts they have what is generally called an Agricultural Short Course. At this time talks are given and pictures shown on various subjects pertaining to agriculture. These short courses usually last several days at one point and people have to travel a long way to attend.

Our counterpart of the short course is the Better Farming Week. There will be sound films on chemical weed control, the use of fertilizers to maintain soil fertility, trees and tree planting, a general interest film, a comedy for the kids, and slides of pictures taken in this district during the past year.

The District Home Economist plans to be on hand to give a short talk to the ladies. There will be a discussion on timely farm topics. You will enjoy the information so plan to come.

Following is a list of places and dates: Eagle Valley, Feb. 13, 2 p.m.; Eagle Hill Co-op Hall, Feb. 13, 8 p.m.; Maddes Hall, Feb. 17, 8 p.m.; Lone Pine Hall, Feb. 17, 8 p.m.; Mayton Hall, Feb. 18, 8 p.m.; Carstairs Hall, Feb. 19, 8 p.m.; Davie School, Feb. 20, 8 p.m.

For the Carstairs meeting an expert will be on hand to give a talk and to answer questions on the use of fertilizers to suit different soil types.

UN-Frozen Foods

Way up in Alaska, within the Arctic Circle, one 70-year-old gardener has found how to get his full quota of home-grown vegetable vitamins. He works gardening wonders by "trapping" the brief summer sun with reflecting aluminum foil barriers, set up behind his vegetables.

This Arctic application takes a leaf out of the book of modern builders and others who make use of aluminum's remarkable reflecting and insulating properties. Demand for Canadian aluminum in foil, sheet, rod, tube and other forms today totals one billion pounds a year. When Alcan completes its present expansion programs, supply will be further increased. Aluminum Company of Canada, Ltd. (Alcan).

Alta. High School
Girls To See Britain

TORONTO — Three Alberta high school girls will visit Great Britain this summer on a six-week expense-paid tour that will include the Coronation. It was announced here today.

The Alberta girls will form part of a group of 50 teen age girls representing all parts of Canada on a tour sponsored by W. Garfield Weston, Canadian-born international industrialist.

Final selection will be made within two weeks by the Canadian Education Association which is reviewing recommendations of the Alberta education department. Nominations were received from high school principals throughout the province. Purpose of the tour is to develop closer Commonwealth relations. Selection standards take into consideration not only a candidate's scholastic record, but also her leadership qualities and ability to absorb experiences and share them with others later. Simultaneously, 50 girls from Britain will visit Canada as Mr. Weston's guests.

In previous years, Mr. Weston has sponsored exchange tours of both boys and girls. The Canadian party will sail for England, May 22 on the Empress of France and will spend several days with members of the British group in London at the Coronation.

FUND GETS LOW
AS CLAIMS HIGH

EDMONTON — Expenditures will exceed receipts in the current car license year if claims against the government's unclassified judgment fund continue at their present high rate, the provincial secretary's department reported on Friday.

Each owner of a motor vehicle pays \$1 into the fund when he gets his automobile license. The money is used to pay court judgments against motorists involved in traffic accidents who are unable to pay damages for which they are ruled accountable.

The department said that in the first nine months of the current fiscal year \$280,397 was paid into the fund and \$263,630 came out.

LOADED LIGHTER

There's a new pocket cigarette lighter fueled with tiny cartridges of compressed gas, car insurers are giving months of service, reports The Financial Post.

AUTO INSURANCE
RATES DOUBLED

REGINA — The Saskatchewan government has doubled premium rates on late-model cars insured under the province's compulsory plan.

Premium for cars of 1940 or later models will be \$20, instead of \$10. Smaller premium increases were announced for earlier models and for commercial vehicles. Public liability limits and death payments are increased and the ceiling on supplementary allowances, weekly indemnity and dismemberment payments is raised.

Here are the new rates on private passenger cars and school buses: 1940 or later, \$20 instead of \$10; 1944-48, \$12 instead of \$10; 1937-43, \$12 instead of \$8; 1933-36, \$8 instead of \$6; and 1932 or older, \$5 instead of \$4.50.

FEDERAL BUDGET

DUE FEBRUARY 19

HOSPITALIZATION IN ALBERTA

In co-operation with municipalities, low-cost hospitalization is available to almost 75 percent of the people in this province.

This is accomplished by:

- (a) The Alberta Government refunding 80 percent of the ward rate over and above 1.00 a day to any municipality which agrees to hospitalize its ratepayers and their dependants at a direct cost to the patient of not more than \$10.00 a day for standard ward care.
- (b) Refunding the same amount to any municipality which sells contracts to its non-ratepayers and agrees to provide standard ward rate hospitalization at \$1.00 a day to these non-ratepayers and their dependants.

In addition, your Government pays 70 cents a day to all approved hospitals for every day a resident of the Province is in hospital, and assumes responsibility for the maternity hospitalization grant and the special provincial payment for old age pensioners.

MUNICIPAL HOSPITAL DISTRICTS:

Any area can be organized as a Municipal Hospital District by application from municipal councils or by petition signed by at least 25 percent of the resident ratepayers. The hospital plan for the district may include the building of a hospital or arrangements for using the services of an established hospital. The Municipal Hospital District owns and controls its own hospital while administration and operation are in the hands of the council. There are 41 municipal hospital districts in the province with a total capacity of nearly 2,000 beds, giving Alberta the highest hospital bed capacity rate in Canada.

Hockey News!!!

HEARD BETWEEN "SLURPS" at the "COFFEE SLURPERS' CLUB" HELD DAILY AT THE BRIGHT SPOT. Officers include: Art Reiber, chairman; Frank Stevens, vice-president; Al Engwer, cashier.

The "members" were well pleased with the game the Ramblers played against Ponoka on home ice, so keep it up boys and we all hope to see you in the league playoffs. The "club" officers were asked to name the STARS of the Ramblers. After much thought and consideration to the selection, here is their choice: Don, Dal, Ron, Bud, Ken, Jim and "Oren" (again), George, Johnnie and Don (again). Cyril, Fred, Glen, Bill, Lloyd, LaVerne and Cec. (To me that's a pretty starry list) and their choice of the best coach in the league was **BILL COWAN**, "by a country mile."

Which reminds me, Mr. and Mrs. Hockey Fan, a good coach is a big part of our team and the Ramblers have had just that from "Bill" so let's show our appreciation by staging a "Bill Cowan Night". Think it over and express your opinion to any member or officer of the "Slurpers Club". Let's get rolling.

DISTRICT NEWS

M.V.B.C. NEWS

(From Our Own Correspondent)

Mountain View Bible College will present the College in its annual College Day on Feb. 22. Members of the Faculty will speak in most of the churches of the United Missionary Conference. They will visit the following fields:

Acadia Valley, Alaska — Rev. D. M. and Mrs. Taylor; Mountain View, May City — Mr. Peter Walldin; Edmonton — Miss Gladys Eby and Miss Margarita Sawatzky; Didsbury — Prof. G. Lyle Richardson; McLaughlin Flats, James River — Rev. Arthur Eby; Bergen — Mrs. Earl Archer; Big Valley, Cremona — Rev. and Mrs. Habermehl. Those living in the Didsbury community will want to hear the message that Mr. Richardson will present to the Didsbury United Missionary Church in his morning service. He will also sing at this service.

Friends of the May City district have donated oats and chop to the College. Arthur Eby, maintenance superintendent, made a trip to that district, bringing back a load of feed for the cows. We appreciate this generosity.

Miss Dixon, representative of the Sudan Interior Mission, was guest speaker in the College Chapel service last Tuesday.

President Taylor spoke on the radio broadcast Sunday morning. College personnel will take part in broadcasting for several Sundays. Miss Gladys Eby will speak on the morning of Feb. 15. Her subject will be "Christian Education." We will announce other faculty speakers as they receive their assignments.

Keith Cox of Castor was a guest at the College over the weekend.

We want to express appreciation to the members of the "100 Club" who sponsor and support our Good News Program. Each month many of them faithfully send in their one dollar membership fee. There may be others in the community who would like to join this club. If so, write to the College for information, or better still, come in and see the secretary, Miss Gladys Eby. Above all, be sure to listen to the broadcast each Sunday at 7:15 a.m.

MILLIONS IN THE MIDDLE

Comparing the latest taxation figures (1950) with 1941 there is a smaller percentage of total taxpayers at the bottom, and fewer at the top and more in the middle notes The Financial Post.

This "levelling" process is even more apparent after the high progressive income tax and social security are counted.

It has important economic and social consequences for Canadians. Mass demand gives outlets to the goods of large scale production; cars, refrigerators, appliances of all sorts. And the quality distinctions are reduced. The office boy's Sunday suit looks a lot like the prime minister's.

The gulf between rich and poor is narrowed. The idea of a class struggle itself has been made obsolete. No one claims he's on the bottom any more.

Big pantry bill: In 1952 Canadians spent \$3,400,000,000 on food.

FINANCIAL STATEMENT ISSUED BY M. D.

The Municipal District of M. D. View No. 49 started issuing the financial statements of the district two weeks ago year by year it is easy to ascertain from the statement that the municipality is becoming big business. One look at the statement shows that with educational and public works services rising year by year that greater assistance in public grants must be made to help cope with this situation.

Mt. View municipality collected from taxes alone \$641,902.17. Against this they had expenditures of \$302,054.09 for public works and \$361,082.95 for education. Taxes, two items alone amount to more than the collectable taxes in the municipality. Only by additional grants and sale of machinery and other miscellaneous items were the municipality able to meet their operating expenses. Cost of machinery repairs under the public works item amounted to \$88,617.20.

Cost of general government for administration of the municipality was \$22,955.77. Health requisitions to Olds and Didsbury and indigent care cost the municipality another \$68,871.37. The liabilities of the municipality still show a temporary loan of \$213,000.00.

Uncollected taxes for the current year just passed amounted to \$191,920.59 with prior year's arrears amounting to \$64,706.78.

Out of revenue during the year the municipality purchased \$61,842.11 worth of capital equipment which included snow plows, tractors, motor graders and a wagon. The balance sheet of the division for work done show that all underspent their estimates for the year.

The total area of the municipal district in acres is 891,450, with an estimated population of 9,929. There are 2,123 resident farmers in the municipality.

Flour Enrichment

After February 1 enrichment of flour will be permitted in Canada. Flour thus enriched will contain about the same amount of thiamine, niacin and iron as whole wheat and about three times the amount of riboflavin as whole wheat. In addition millers may, if they wish, add calcium to the flour.

Canadians have come to demand a fine, white bread. In milling and processing wheat to obtain the fine, white flour needed for this, some nutritional values are unavoidably lost. Enrichment is claimed to be the answer to this loss as it restores vitamins and minerals to the finished bread or flour.

In the United States where the enrichment 10 years it has proven so successful that it is now of white flour and bread has been permitted for compulsory in 28 states.

Courage is the first of human qualities because it is the quality which guarantees all the others. —Winston Churchill

Mr. and Mrs. W. J. Smiley of Nelson, B.C., are visiting in the district with the latter's sister, Mrs. Walter Irwin. Mr. and Mrs. Smiley were former residents of this district.

Rumor has it that at least one of our local hockey fans should either hire a bodyguard or else stay away from games played in the Olds arena. The gentleman, who must remain anonymous for security reasons, was accosted by a veritable plant, who wanted to do battle. Our friend, maybe he's your neighbor, looked for reinforcements but none were in sight. Eventually it came to light that it was a case of mistaken identity and things apparently were smoothed over with no complications. (Actually we have it through the grapevine that the "plant" was only one of the Olds Rink Rats looking for a match.)

Mrs. Frank Jackson, Mr. and Mrs. William Collinge and Mr. Tom Collinge of Acme, motored to Eston, Sask., recently to attend the funeral of their uncle, Mr. George Collinge.

Mr. and Mrs. C. F. Stroud and family of Red Deer visited with Mr. and Mrs. E. Cogswell and Mr. and Mrs. W. Irwin and family on Sunday.

WEDDINGS

BIELECH — FULKERTH

A quiet but impressive wedding was solemnized at Highlands United Church on Thursday, Feb. 5, 1953 at 2 p.m. when Miss Edna Mae Fulkert of Edmonton formerly of Didsbury became the bride of Mr. Edward Victor Bielech also of Edmonton. Reverend Samis officiated.

The bride looked lovely in a tailored suit of grey gabardine with white accessories and wore a corsage of red roses and white carnations.

The bride was attended by her younger sister, Miss Doris Fulkert of Edmonton. She was becomingly attired in a grey tailored suit with white accessories and wore a corsage of pink roses.

The groom was attended by his younger brother, Pte. Albert Bielech of Camp Borden, Ont.

Following the ceremony a reception for 25 guests was held at the home of the bride's mother, Mrs. Freda Brinton, who acted as hostess. She was attired in a beige suit with mauve accessories and wore a corsage of yellow roses and white carnations.

Mrs. Bielech, mother of the groom was attired in a burgundy suit with black accessories and wore a corsage of white carnations and cream roses.

Following the cutting of the three tiered wedding cake, a toast to the bride was proposed by Mr. Rex Fulkert, uncle of the bride and fittingly responded to by the groom.

A telegram from Mr. and Mrs. Bob McGaffin of Vancouver, B.C., uncle and aunt of the bride and formerly of Didsbury was read by the best man.

Following the reception the bride and groom left for a short honeymoon to Calgary stopping off at Didsbury to visit.

SCOUTS — A WORLD BROTHERHOOD

When a boy becomes a Scout he becomes more than a member of a pack and troop in Canada—he becomes a member of the world's greatest organization of youth, for there are Scouts in practically every country from tiny landlocked Luxembourg to the vast, sun-baked countries of India and Pakistan. In fact in nearly every free country the Boy Scout movement flourishes. At every four year interval there is held a World Scout Jamboree. On these occasions many thousands of Scouts from many different countries are brought together for two weeks of camp fun and demonstrations of one another's camping and hiking methods.

These great youth rallies sponsor a remarkable spirit of friendship, understanding that so many of the boys cannot speak one another's language. It is a wonderful thing for any Scout to realize that in lonely cottages on the Scottish moors, or beyond the Arctic circle or beneath tropic skies, there are "Brother Scouts" believing in the same ideas and playing the same game and all working for the same thing: mutual understanding and friendliness between men of all nations.

The Brotherhood of the Boy Scouts is an active "United Nations" comprising boys of many races and colors and creeds all bent on building a new world.

You are asked to support the Boy Scout movement in your district. With your support the movement is for a better Canada and a better world.
